EXPERIENCE

### Bilsa Yazılım A.Ş

2021 August - 2021 September, İzmir

At the summer of my third grade, ı worked as an intern in Bilsa Yazılım A.Ş. I studied ASP.NET. Honed my skills in mvc framework.

Freelance

2022 February - 2022 April, Isparta

I was trying to improve on developing and designing games at the beginning of my 4th year so i found that working on freelances motivates me to do more. I made a topdown game, got 3D design freelances. Overall improved myself on game dev and 3D design.

Egerobot

2023 January- 2023 February

II worked as an intern and learned a lot about Unity and 3D design. Made a factory for Unity VR and learned about how lightmaps work, model rigging, design fundamentals etc.

Turkish
100%

English
80%

Japanese
10%

SKILLS

Blender
ASP.NET
Java
Unreal E.
Unity
SQL
C#
C

Hobbies

Fantastic Role Playing

I'm currently running a fantastic role playing club called Players of Isparta. We play games like Dungeons and Dragons, Pathfinder, Cyberpunk.

3D Design

Two years ago i started designing in blender just for fun and it has become my passion. I loved it from the moment i begun. It all started with this little donut.
